SUMMARY

Effective student committed to learning, developing skills in programming and team contribution. Self-directed and energetic with experience in both autonomous or collaborative environments working independently or collaborating with team on group projects.

TECHNICAL SKILLS

Programming languages:

CPP | Python | C | R | JavaScript

Framework:

React JS | Next JS | Node JS

Web technologies:
HTML | CSS | Bootstrap

Tools:

Firebase
Data Structures and Algorithms
Tableau
Microsoft Excel

CERTIFICATIONS

- Create Charts and Dashboards Using Microsoft Excel | Sep'22
- Data Structures and Algorithms – Self Placed Course |GeeksForGeeks | Jun'22
- Mobile App Development | Lovely Professional University | Jun'21-Aug'21

POWER SKILLS

- Creativity
- Objective
- Curious
- Perceiving

EXTRA CURRICULAR ACTIVITIES

- Participated in Competitive Event of Mongo dB | Oct'22
- Participated in the weekly contest in Geeks for Geeks | Aug'22-Oct'22
- Participated in various tech conferences | Sep'22-Jan'23

TRAININGS

React JS Front-end Development Program | Programming Pathshala   Jan'23–Feb'23

- Gained hands-on experience in deployment of applications, implementing business logic and end to end applications.
- Implemented CRUD operations in database using MySQL and Implemented some server-side rendering concepts in real-time projects.
- Developed & designed some small real time projects such as Todo app, BMI Calculator using material UI.
- Technology Used: React JS, Postman, Node JS, GitHub.

PROJECTS

Ecommerce–Site   Mar'23

- Domain: Web Application | Web Technologies: HTML, CSS, ReactJs.
  - Developed & designed a complete e-commerce site with an order page for logging/signing up, add to cart and all type of cards acceptable.
  - Provided a User-friendly-Interface to the end User.
  - Created, Implemented & executed business strategies, handled exception cases, delivered good responsive website, constructed RESTful APIs Integration and used HTTPS for secure communications.
  - Technologies used: Stripe, Firebase, Material UI, APIs.

Web Messenger   Dec'22

- Domain: Web Application | Web Technologies: HTML, CSS, ReactJs.
  - Used Firebase to authorize logins, store chat history, retrieve saved contacts and their last active status.
  - Implemented using styled components to create custom React Components with specific style which helped in better maintenance of CSS.
  - Technologies used: Firebase Real-Time database, Material UI, WebSocket's.

ACHIEVEMENTS

- Solved 150+ DSA problems on various coding platforms.   Dec'22
- Bagged 9th position in the 24 hrs,Tech-a-thon conducted by iNeuron.   Sep'22
- Scored a 4-Star Rating in Python and C on Hacker Rank.   Jun'21

EDUCATION

Bachelor of Technology: Computer Science and Engineering   Aug'20 – Present
Lovely Professional University |Phagwara, IN
CGPA 8.29

Post–Secondary School Certificate   Jun '18 – Mar '20

Tirumala Junior Collage|Rajahmundry.
Percentage 95%
